CAREER SUMMARY

A passionate and self-motivated **Python Full Stack Developer** with a strong foundation in web development. Completed **Python Full Stack Development** training and gained **3 months of hands-on internship experience at Profenaa Infotech**. Eager to apply my technical skills, continuously learn new technologies, and contribute to the success of a growth-oriented organization.

ROLES AND RESPONSIBILITIES

- Developed and maintained web applications using Python Flask.
- Built responsive user interfaces using HTML, CSS, and JavaScript.
- Designed and integrated CRUD operations with PostgreSQL database.
- Worked with Git and GitHub for version control and collaboration.
- Tested, debugged, and optimized application performance.
- Participated in deployment and maintenance of web applications.

PROJECTS

Project 1: Student Registry System (Python Full Stack)

Link: <https://student-records-2-87nc.onrender.com>

Project description:

Developed a full-stack **Student Registry System** using **Python Flask**, **PostgreSQL**, **HTML**, **CSS**, and **JavaScript** with secure user authentication, CRUD operations, password recovery, and responsive UI. Deployed the application on **Render** with **GitHub** integration.

Project 2: E Commerce website

Link: <https://e-commerce-websitebuild.netlify.app>

Project description:

Developed a responsive E-Commerce website using **HTML**, **CSS**, **JavaScript**, Implemented product listing, search, shopping cart, and responsive design to provide a smooth and user-friendly shopping experience across desktop and mobile devices.
